

SECURITY IS AN EXECUTIVE DECISION.

Compact, portable and incredibly tough, the Gary® Executive Safe is a must-have for anyone from business executives to frequent travelers. With an Executive Safe, you can securely store items inside a desk drawer or even automobiles – your PDA, cell phone, watch, computer discs, credit cards, keys, files, and other valuables. The safe even comes in black or camouflage finish to best protect what you want, when you want.

The handy mounting system allows the safe to be easily moved from desk drawer to car trunk or nearly any location. And once the safe is locked into place, only those with the proper entry code can open it or move it. Other features include lighted keypad, low-battery alarm, and timed system shutdown after the third incorrect code is entered.

With a Gary® Executive Safe, you can feel safe in your office or on the go. To learn more, read through the specs on the back of this sheet.

Smarter Thinking In Standard And Custom-Plate Safes

The Gary® Executive Safe

Installs easily inside a desk drawer or in the trunk of a car.

Instant Access

- Cover opens automatically when you enter your security code.
- No more fumbling with locks or keys.

Portable & Securable

- Light enough to be easily carried, the Executive Safe can be conveniently taken along on business or personal travels.
- Two mounting plates included, allowing you to secure valuables in your desk, car or nearly any location.
- Additional mounting plates may be purchased.

Enhanced Security

- When lock is closed, any incorrect entry code will be rejected.
- If an incorrect code is entered, a buzzer alarm will sound.
- A third incorrect code entry starts a 5-minute timer, during which no codes will be accepted. At the end of the 5-minute timer, a correct user code will be allowed.

Lighted Keypad

- When any key is pressed, the entire keypad lights up, making access easy – even in low-light situations.

Battery Operated

- Operates on 4 AA/1.5V batteries.
- Features an automatic “low battery” alarm and mechanical override key.

Easy Installation

- Simple mounting system allows you to install mounting plates on a variety of surfaces, including wood and concrete.
- The safe itself is easily removed from the mounting plates by anyone with a proper entry code.
