Date March 2005  
Subject Keyless with Streaming Audit Output AuditLok XL Upgrade Kit  
Issue By NKL Cash Handling - a member of FKI Security Group  
Issue To NKL Sales and Service, Dealers, Customers  
Document 50301

## OVERVIEW

AuditLok XL electronics are now available in “standard” (XL2.41) and “keyless/streaming” (XL2.53) versions. The keyless/streaming version includes two major new features.

1. XL2.53 allows users to be enrolled with or without keys. Keyless users are enrolled with a user number in place of a key. The permissions of a keyless user are the same as permissions of a user with a #2 key. Users requiring manager or higher permissions must still be enrolled with a key.
2. XL2.53 provides a constant flow of audit data to the audit output serial port located on the front of the safe. AuditLok XL will transmit all audit data in real time to this port so that an Image Vault Digital Video Recorder may be used to monitor all safe activity via its Multi-Application Data Exchange (M.A.D.E.) Interface. This streaming flow of audit data does not interfere with XL Remote Download software or audit report printing capabilities.

Customers may purchase new safes with AuditLok XL electronics with “standard” XL software and may purchase the “keyless/streaming” option as an upgrade. Any existing safe with the standard version may be upgraded.

## PRODUCTS AND SERIAL NUMBERS AFFECTED

Safes with AuditLok XL electronics.

## ACTION REQUIRED

Customers may order new product with this upgrade by specifying “XL Keyless/Streaming Upgrade” at the time they order. Existing customers may contact their NKL Sales representative or NKL Customer Service to obtain upgrade pricing information; contact NKL Technical Service to obtain upgrades to existing safes.

## ADDITIONAL INFORMATION

If you have any questions or problems with the software contact NKL Technical Support at 1-800-452-4655. You can also check for more information about this update or any other product updates any time at [www.fkitechinfo.com](http://www.fkitechinfo.com).
