Introducing Image Vault® PRO Command.

You can have the greatest monitoring setup in the world, but if no one's reviewing the video, then you might as well have no setup at all. That's why there's the new Image Vault PRO Command: it's the first DVR that not only watches your stores, but watches the people who are supposed to watch your store. Originally developed for the highly successful loss-prevention program of a leading national convenience-store brand, this system is now available to all retail operators. So put your stores at the top of the efficiency and loss-prevention chain with the best DVR out there; the DVR so advanced it even helps manage the human factor. Put your stores in the Image Vault PRO Command picture today.

Key Features:

- **Viewing Time Percentage Reports** – Even the most revealing footage is useless unless someone actually watches it. With this in mind, Image Vault PRO Command has a built-in Reporting Feature that allows you to track store-manager viewing—whether managers have viewed footage, and how much time they've spent watching it.
- **Increased Search and Reporting Capabilities** including "Viewed vs. Not Viewed" Feature that lets managers flag video they've already viewed for greater efficiency.
- **Ability to classify audit entries as "Unknown," "Valid," "Suspect," or "Investigate"**
- **Advanced Schedule Feature for backing up video to external media.**
- **Maximum Frame Rate of 480 fps**
- **Per-Camera Resolution and Frame Rate Settings**
- **Superior Video Resolution Options:**
320 x 240; 640 x 480; 352 x 240; 704 x 480
- **Synched Audio:** Up to 16 Channels

Additional Features:

- Includes Mouse, Virtual Keyboard, and CDRW
- Hard Drive Sizes from 250GB to 3TB (Terabyte)
- Remote Access via Dial-up, DSL, LAN/WAN, and Internet; 10/100/1000 On-Board Ethernet
- Interfaces with more than 100 POS systems, Access Control, PTZ, and Electronic Safes
- Alarm, System, Contact Closure, or Data Event notification via email or SMS

The Image Vault® PRO Command

Hardware Specifications:

- **Dimensions:** 18 1/2" D x 17" W x 7" H
- **Approximate Shipping Weight:** 55 lbs.
- **Operating Temperature:** 5° C to 40° C (41° F to 104° F)
- **Relative Humidity:** Below 90% non-condensing
- **Power Source:** 115-220 VAC (auto switch), 50-60 Hz, 350 W
- **Mouse and Virtual Keyboard**
- **CDRW**
- **Hard Drive Sizes Available (depending on model):**
250GB, 500GB, 750GB, or 3TB (terabyte)

Operating System:

- Windows XP Embedded

Video Specifications:

- **Compression Method:** MPEG 4
- **Speed (depending on model configuration*):**
30fps, 60fps, 120fps, 240fps, or 480fps
- **Speed is adjustable by camera**
- **Resolution:** Set by camera at 320 x 240; 640 x 480;
352 x 240; 704 x 480
- **Image Compression:** Averages 3.8 kB per frame at 320 x 240
- **File Format:** Image Vault Encryption
- **Analog Video Input:** 1V p-p, 75 Ohm
- **Video Standard:** NTSC, PAL
- **External/Main Monitor:** BNC/VGA

**Record speed may vary depending on the presence of other inputs/interactions to the DVR.*

Connecting to PRO Command:

- Optional External Modem
- LAN/WAN: 10/100/1000 On-Board Ethernet

Interface Capabilities:

- POS Interface: Over 100 models (14 being Network Capable)
- Access Control
- PTZ
- Electronic Safes

Alarm Capabilities:

- 16 Inputs
- 1 Dry Contact
- 1 Virtual, 1 Email
- 1 Watchdog
- Pre-Alarm/Post-Alarm Recording
(patented method)
- "Robbery Button" Alarm and Automatic
Download of video to CD

Warranty and Certifications:

- 1 Year Parts and Labor Warranty
- Safety Standard: cTUVus
- Manufactured in the U.S.A.
