

Vertical 25" International Series

An incredible combination of strength and durability. At an affordable price.

Introducing the new and improved FireKing Vertical 25" International Series, a sturdy, dependable, fireproof file that offers unbeatable records protection at an affordable price. The FireKing Vertical 25" file cabinets are perfect for your home, personal office or small business.

Remember, your documents and records are the very lifeblood of your business. Don't sacrifice on protection. Vertical 25" files are ideal for: Tax Records, Insurance Records, Contracts, Deeds, Journals, Accounts Payable/ Receivable. Or any irreplaceable documents or records.

The Quality You Need.
The Features You Want...

When it comes to protecting your valuable records, few files can offer you as much as the FireKing Vertical 25" International Series. Vertical 25" files carry the Underwriters Laboratories® Class 350 One-Hour fire rating. This is no coincidence when you consider the Vertical 25" Series files feature 100% gypsum oven-dried insulation.

FireKing Vertical 25" International Series files new and improved features include: contemporary recessed handles, high sides to accommodate hanging file

folders, and UL® Listed high-security Medeco® keylocks.

Other Vertical 25" file features are durable, scratch-resistant powder-coated finish, a lock bypass lever, heavy-duty telescoping all-bearing suspension, and removable/replaceable panels.

...Plus Protection That's Guaranteed.

For added peace of mind, Vertical 25" files carry a 3-Year Warranty, along with a Lifetime Free Replacement Guarantee in the event of damage by fire. If your Vertical 25" file ever has to perform its job in a fire, we'll give you a new one - free.

Vertical 25" International Series Specifications

Insulation

The International's casting is of 100% gypsum insulation, dried in a low-temperature oven to reduce free moisture to less than 1/2%. Insulation is reinforced with 2 mm-thick galvanized welded-steel wire and insulation between all drawers, which makes each drawer a separate insulated container.

Steel Panels

All exterior International steel panels are replaceable in the field in the event of minor damage.

Finish

An electrostatically applied powder coating makes for the International's superior scratch, scuff and stain resistance. Plus, a five-stage pre-finishing treatment is provided for unmatched adhesion and rust resistance.

Drawer Suspensions

Heavy-duty telescoping all-bearing drawer suspension is securely mounted with screws to metal posts in the International file body.

Drawer Bodies

Each International drawer body is built with high sides for use with hanging folders - no additional frames are required. Drawers are suitable for A-4,

box file, folio, foolscap and ledger filing. (Divider rails are available with each file to allow for a variety of filing configurations.)

Drawer Heads

International drawer heads are formed of welded steel and filled with gypsum insulation. Drawer heads are designed for a tight interlock with the cabinet frame - making the drawers extra-resistant to heat transfer.

Drawer Lock

The FireKing Vertical 25" International Series files feature UL® Listed high-security Medeco locks and optional combination locks for additional security and multiple locking.

Drawer Bypass

Drawer Bypass feature works for all International drawers. In its "up" position, a two-position drawer catch allows that drawer to stay unlocked while all other drawers remain locked.

Drawer Pulls

International's contemporary recessed handles offer the look most wanted by today's office designers.

Product Warranty

All International files bear a 3-Year Warranty from date of purchase.

Free Replacement Guarantee

If your Vertical 25" International File is ever required to protect your records in a fire, FireKing will replace your file free after it's done its job, if any damage occurred to its exterior.
