

Dual Door Rotary Hopper Safe

Proven Solution, Outstanding Service

- B-rated safe – robbery and theft deterrent
- Rotary hopper – accepts packages up to 9½"Lx3½"Wx5½"D
- Multiple user codes – up to thirty unique codes
- Time delay feature available – robbery and theft deterrent
- 24/7/365 live technical support – support when needed

RH3420 Allows Large Deposits into Separate Compartment

The RH3420s quick rotary hopper provides you the ability to make large drops. The rotary hopper's unique "tube-in-tube" design makes "fishing" difficult. The dual doors limit access to these drops and is a proven deterrent to cash losses. The safe is fit with key access to the top compartment, with the lower door fitted with an electronic lock that is programmable with up to thirty user codes limiting access to those who need it. In addition, setting a time delay can be a strong theft and armed robbery deterrent. All these features, coupled with outstanding customer service and live technical support when you need it, provide you the capabilities and confidence you are looking for.

SPECIFICATIONS FOR RH3420
