

Not too big, not too small. It's just the right size.

Protect your important documents and computer media from unforeseen disasters. With its compact 22" depth and offered in 2- and 4-drawer vertical models the Turtle® files are a perfect fit for your home office or small business. Turtle® files are fire and impact rated for paper and computer media. Both letter- and legal-sized documents can be filed in a Turtle® and a 4-pin key lock is standard. Turtle® files are available in Arctic White (AW), Black Stone (BS), and Parchment (PA) colors.

FIRE PROTECTION FOR PAPER DOCUMENTS AND COMPUTER MEDIA

The shell-hard, Turtle® line of products underwent grueling testing procedures to ensure that it passed intense fire and impact ratings. With ratings of UL 1-hour Class 350 for paper, a 30 minute ETL verification for computer media and a 30 foot impact rating; each and every highly durable fire rated file cabinet has been meticulously designed and tested to offer the highest quality asset protection. Coupled with compact and flexible filing, the Turtle® vertical file cabinets are perfectly designed to meet your unique home, personal office, and/or small business needs. Whether you are safeguarding everything from your birth certificate and passport to your valuable business records, you will find the protection you need from FireKing®.

- Letter- and legal-sized filing
- Recessed handles
- Replaceable panels

Accepts both legal- and letter-sized documents using a front-to-back or side-to-side filing system.

SPECIFICATIONS

RECOMMENDED FILING ARRANGEMENTS FOR 2- AND 4-DRAWER VERTICAL FILES

FIRE AND IMPACT RATING

The FireKing® Turtle® carries the Underwriters Laboratories® “Insulated Records Container” classification, which includes a one-hour fire test of 1700°F, an explosion hazard test and a 30-foot impact test.

ETL RATED FOR COMPUTER MEDIA

The FireKing® Turtle® is verified for digital media protection. Intertek ETL verified to protect hard drives, CD’s, DVD’s and flash drives from heat exposures up to 1550°F for 30 minutes.

INSULATION

The FireKing® Turtle’s casting is of 100% gypsum insulation, and insulation between all drawers makes each drawer a separate insulated container.

STEEL PANELS

All exterior FireKing® Turtle® steel panels are replaceable in the field in the event of minor damage.

FINISH

An electrostatically applied powder coating makes for the FireKing® Turtle’s superior scratch, scuff and stain resistance. Plus, a five-stage pre-finishing treatment is provided for unmatched adhesion and rust resistance.

DRAWERS

Suspension: A precision ball bearing telescoping suspension, bayonet-mounted to each drawer body, is securely mounted with screws to metal posts in the FireKing® Turtle’s file body.

DRAWER BODIES

Each FireKing® Turtle® drawer body is built with high sides for use with hanging folders – no additional frames are required. Drawers are suitable for both letter- and legal-sized filing. For letter-sized documents, use a front-to-back filing method; for legal-sized documents, use a side-to-side system.

DRAWER HEADS

FireKing Turtle drawer heads are formed of welded steel and filled with gypsum insulation. The drawer heads are designed for a tight interlock with the cabinet frame – making the drawers extra-resistant to heat transfer.

DRAWER LOCK

A four-pin key lock provides general locking of all FireKing® Turtle® drawers.

DRAWER BYPASS

In its “up” position, a two-position drawer catch allows that drawer to stay unlocked while all others remain locked.

DRAWER PULLS

Recessed for better space utilization.

FREE REPLACEMENT GUARANTEE

If your FireKing® Turtle® is ever required to protect your information in a fire, we will replace your FireKing® Turtle® free of charge and ship it freight collect to the original owner.
